

VTB for the environment

- 83 Financing environmental projects
- 88 Environmental impact management
- 93 Charitable environmental projects

"We are proud of the fact that VTB's effort in preserving the unique natural treasures of our country and its inhabitants bring even more tangible results from year to year. Among other things, our work aims to draw the attention of the professional community to the urgency of environmental issues in Russia. We are going to continue providing funds, administrative and charitable support to the most important environmental projects".
